  Gujarat Technological University **|** VVP Engineering College, Rajkot **|** CPI: 8.63

Project

- **Waste Management System**
  o The "Waste Management System" is an interactive web platform designed to address the growing waste management challenges in urban areas. This system enables users to register for scheduled waste collection directly from their homes and fosters community participation in maintaining city cleanliness. Users can collaborate with the system by submitting photos of unclean areas, prompting the cleaning team to take action.
  o Technologies Used: HTML, CSS, PHP, MySQL.
